

Industrial Concierge

A joint project with *Saskatchewan Industrial & Mining Suppliers Association* (SIMSA), the Industrial Concierge provides personalized advice to SIMSA members (small and medium enterprises) to support digital innovation, carbon reduction, and ESG initiatives in the supply chain that meet the needs of IMII's minerals company members.

The Concierge assists SIMSA members in meeting the [IMII's](#) minerals member company needs on:

- Digital transformation
- Carbon accounting, reporting, and reduction

The Concierge service also acts as a connector between SIMSA members and:

- resource producers – relaying industries' needs as well as SIMSA members' abilities to fulfill them (especially in the area of digital innovation)
- solutions providers – sourcing leads to 3rdparty solutions for SIMSA members to address industries' current and future needs (especially in the area of carbon reduction)
- funding agencies – sourcing leads to funding agencies to assist in these efforts.

This service is also financially supported by PrairiesCan and is available at no cost to SIMSA or IMII members for the first two years.

Proponent:	SIMSA
Project Duration:	November 2021 to December 2023
Project Cost:	\$300,000
IMII Contribution:	\$150,000
SIMSA Contribution:	\$150,000

**INTERNATIONAL
MINERALS INNOVATION
INSTITUTE**

IMII is a unique innovation supporting network of mining companies, government departments and agencies, and post-secondary and research institutions, jointly funded by industry and government. It exists to deliver innovations that matter to mining in Saskatchewan.
