

IDEATE 2025

May 13, 2025

9:00 am – 4:00 pm

The Willows Golf and Country Club, 382 Cartwright Street, Saskatoon, SK

IDEATE 2025 is an opportunity for research faculty and students from Canadian Light Source, University of Regina, University of Saskatchewan, Saskatchewan Polytechnic, SAIT, NAIT, Red Deer, Red River College, Northwestern Polytechnics, to engage together to learn about and discuss problem areas identified by the minerals industry which they believe are amenable to applied research with the potential to lead to the development of innovative solutions.

Seven topic areas have been identified for 2025. The accompanying IDEATE 2025 Agenda & Research Topics document provides details on each of these topic areas. The workshops will allow for small table/group interactions between industry subject matter experts and interested researchers. They are meant to provide researchers with the opportunity to develop a clear picture of the industry interest and need to construct an initial problem statement on the challenge to be addressed in ideation.

Name

Institution

Email

Phone Number

Workshops will be running in concurrent sessions. Please select only one workshop per timeslot.

Time

10:00 – 10:45 am – Workshop #1

Advanced Chemicals

Carbon Capture, Utilization and Storage (CCUS)

11:00 – 11:45 am – Workshop #2

Remote Sensing

Emissions Control

12:00 – 1:00 pm

Lunch

1:00 – 1:45 pm – Workshop #3

Heat Recovery

Mine Planning

2:00 – 2:45 pm – Workshop #4

Novel Use for Potash Tailings

INTERNATIONAL
MINERALS INNOVATION
INSTITUTE

Please provide a short bio. Include your credentials, areas of interest, and how your experience is relevant and beneficial to the workshops you have signed up for.

Registrations are due by April 4, 2025, @ 4:00 pm. Submit your registration to admin@imii.ca.
